**Anryze Pitch Helper**
**Description**

● **Presentation language**: English only

● **Features**:

- Sequential slide switching with voice commands NEXT/PREVIOUS SLIDE
- Slide switching by caption SLIDE CAPTION + slide name or SLIDE TITLE + slide name.
  Long captions are cut up to five words

● **Modes**:

- View - launches slide show and voice assistant (installed PowerPoint is required)
- Test - test mode where the user can check accuracy of command recognition, set up a microphone, correct speech volume, accent, and other aspects for better recognition (Installed PowerPoint is not required)
- Adapting - a mode where the system adapts to voice and microphone. Should increase recognition accuracy up to 10%. Still in the test mode, might not be working for some Windows versions (such as Windows 10S)
-
● **Files support**:
  *pptx (Might not work properly if the file was converted from another format or older .pp format.

● **System requirements**:
  Windows 8/10 64bit (The launch is possible for other OS's, in testing mode.

● **Microphone settings**:

*Note*: correct setting significantly affects the recognition accuracy. The user can try different settings to improve recognition.
